 - Enterprise Chassis, switches, and other components
 - Older Flex System servers

For all Lenovo stencils, including older System x and ThinkServer systems, Lenovo storage, and Lenovo networking, go to <http://www.visiocafe.com/lenovo.htm>

To use the stencils, use the following guide:

1. Open the zip file and save the VSSX file(s) to your **Documents\My Shapes** folder.
2. In Visio, ensure the Shapes pane is open by clicking **View > Tasks Panes > Shapes**.
3. In the Shapes pane, click **More Shapes > My Shapes** and select one of the Lenovo packages
4. You can then drag/drop the required shape onto your document

Tips for use:

- These VSSX files require Visio 2013 or later
- All stencils work best on pages of scale 1:2 to 1:30 - Template pages with the proper settings are available for download from the [VisioCafe template page](http://visiocafe.com). Do not use the Visio "Blank page" which uses a scale of 1:1 (no scale), it has been found to cause a lot of problems.
