E-WASTE DISPOSAL

Environmental compliances:

As per the rules laid down by the Government for environmental concern & safety, your product has been made to comply and conform to the respective regulation as listed below. This product falls under the E-WASTE (MANAGEMENT) RULES, 2016 with all amendments of Ministry of Environment, Forests & Climate Change.

RoHS declaration:

This Product is in conformity with the requirements of Rule 16 of the E-WASTE (MANAGEMENT) RULES, 2016 with all amendments. The content of hazardous substances with the exemption of the applications listed in SCHEDULE II of the E-waste (Management) Rules, 2016 is as follows:

1. Lead (Pb): not over 0.1% by weight;
2. Mercury (Hg): not over 0.1% by weight;
3. Cadmium (Cd): not over 0.01% by weight;
4. Hexavalent Chromium: (Cr6+): not over 0.1% by weight;
5. Polybrominated Biphenyls (PBBs): not over 0.1% by weight;
6. Polybrominated Diphenyl Ethers (PBDEs): not over 0.1% by weight.

Information under E-Waste (Management) Rules, 2016

For disposal of E-waste, please call our helpline no.

Do's and Don'ts for disposal of product:

1) Do's :

- a. Always drop your used electrical/electronic products, batteries, cables, adapters and packaging materials after the end of their life at the nearest authorized collection point/center.
- b. Separate the packaging material according to their respective waste disposal options and sorting for recycling.
- c. The batteries can be easily removed from the product for recycling.

2) Don'ts :

- a. Never dump E-waste in Garbage bins or Municipal solid waste stream.
- b. Do not dispose your product as unsorted municipal waste.
- c. Do not throw or dispose used, damaged and leaking batteries & products into household waste.

Safety Instructions

1. **Read Instructions** - All the safety and operating instructions should be read before the appliance is operated.
2. **Retain Instructions** - The safety and operating instructions should be retained for future reference.
3. **Heed Warnings** - All warnings on the appliance and in the operating instructions should be adhered to.
4. **Follow Instructions** - All operating instructions should be followed.

5. **Water and Moisture** - The appliance should not be used near water.
6. **Cart and Stands** - The appliance should only be used with a cart or stand that is recommended by the manufacturer.
7. **Wall or Ceiling Mounting** - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.
8. **Ventilation** - The appliance should be well situated so that its location or position does not interfere with its proper ventilation.
9. **Heat** - The appliance should be placed away from heat sources such as radiators, heat registers and stoves.
10. **Power Sources** - The appliance should only be connected to a power supply as described in the operating instructions or as marked on the appliance.
11. **Grounding or Polarization** - Precautions should be taken.
12. **Power Cord Protection** - Power supply cord should be routed so that it is not likely to be walked on, pinched by items placed upon it against the cord and its end.
13. **Cleaning** - Unplug the TV from the power outlet before cleaning. Do not use liquid, abrasive, or aerosol cleaners. Cleaners can permanently damage the cabinet and screen. Use a lightly dampened cloth for cleaning.
14. **Power Line** - An outdoor antenna should be located away from power lines.
15. **Outdoor Antenna Grounding** - If an outside antenna is connected to the receiver, the antenna system must be grounded so as to provide against voltages and built-up static charges.
16. **Non-use Periods** - The power cord of the appliance should be unplugged from the outlet when left unused for a long period of time.
17. **Object and Liquid Entry** - Care should be taken so that objects do not fall, and liquids are not spilled into the enclosure through openings.
18. **Conditions requiring Service** - The appliance should be serviced by qualified service personnel when:
 - The power-supply cord or the plug has been damaged.
 - Objects have fallen on or liquid has been spilled into the appliance.
 - The appliance has been exposed to rain.
 - The appliance does not appear to operate normally or exhibits a marked change in performance.
19. **The ventilation should not be impeded by covering the ventilation opening with items, such as newspapers, table-cloths, curtains, etc.**

No naked flame sources, such as lighted candles, should be placed on the apparatus.
The apparatus shall be connected to mains socket outlet with a protective earthing connection.
The appliance coupler regard as disconnection device, the disconnect device shall remain readily operable.

Safety Instructions

Warning

High voltages are used in the operating of this product. Do not remove the back cover of the cabinet. Refer servicing to qualified service personnel.

Warning

To prevent fire or electrical shock hazard, do not expose the main unit to rain or moisture.

Warning

Do not drop or push objects into television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

Caution

If the television is to be built into a compartment or similarly enclosed, the minimum distances must be maintained. Heat built up can reduce the service life of your television, and can also be dangerous.

Caution

Never stand on, lean on, push suddenly the product or its stand. You should pay special attention to children.

Caution

Do not place the main unit on an unstable cart stand, shelf or table. Serious injury to an individual, and damage to the television, may result should it fall.

Caution

When the product is not used for an extended period of time, it is advisable to disconnect the AC power cord from the AC outlet.

Caution

Avoid exposing the main unit to direct sunlight and other sources of heat. Do not position television receiver directly on other products which give off heat. E.g. Video cassette players, audio amplifiers. Do not block the ventilation holes in the back cover. Ventilation is essential to prevent electrical failure. Do not squash power supply cord under the main unit.

Caution

The panel used in this product is made of glass. It can break when the product is dropped or applied with force. Individuals should execute caution when dealing with broken glass.

Installation

Installing the Stand

⚠ CAUTION

- Be sure to disconnect the A/C power cord before installing a stand or Wall-Mount brackets.
- The LED display is very fragile, and must be protected at all times when installing the base stand. Be sure that no hard or sharp object, or anything that could scratch or damage the LED display, comes into contact with it. DO NOT exert pressure on the front of the TV at any time because the screen could crack.

Follow the illustrations and instructions below to complete the installation steps:

1. Carefully place your TV facedown on a soft, flat surface to prevent damage to the TV or scratching to the screen.
2. Remove the 2 stands from the accessory bag and then insert the stands into the bottom slots of the TV.
3. Secure the BASE STAND to the TV with the 4 screws in accessory tightly.

📌 NOTE

Pictures are only for reference, actual product may vary in appearance.

► WALL-MOUNT BRACKET SPECIFICATIONS

TV	80cm	102cm	109cm

Control Keys and Connectors

32 HD & 40,43 FHD

Side Connectivity

RJ 45 LAN: Plug in network RJ 45 plug to connect to an external modem or network access equipment.

AV Input: The AV IN sockets can be used to connect a range of equipment, including AV IN AUDIO video recorders, camcorders, decoders, satellite receivers, DVD players, or gaming consoles. The VIDEO IN socket provides composite video connection.

HDMI 1 / HDMI 2 Socket (Input): The HDMI (High-Definition Multimedia Interface) socket can be used to connect with a HDMI-PC with a compatible video card, certain DVD players or an HD compatible digital satellite decoder. This socket provides an uncompressed digital connection that carries both video and audio data by way of an integrated mini-plug cable. ARC (Audio Return Channel) function is only supported on HDMI 2 (ARC) port for this model.

Digital Audio Out: Use a digital optical cable to connect your TV to a compatible audio receiver

RF/ANTENNA IN Socket (Input): Lets you connect a coaxial cable to receive the signal from your antenna, cable or cable box.

USB Interface: Insert a compatible thumb drive for image, audio & video playback.

Remote Control
