ELECTRIC STOVE

HOME OWNER'S INSTRUCTION MANUAL

Model: SP5070-PLRM

ATTENTION

FIND A LOCATION FOR THE FIREPLACE HEATER THAT IS PROTECTED FROM DIRECT SUNLIGHT.

FAILURE TO READ ALL INSTRUCTIONS MAY RESULT IN A POSSIBLE ELECTRIC SHOCK, FIRE HAZARD AND / OR INJURY WILL VOID THE WARRANTY

CONSUMER SAFETY INFORMATION

PLEASE READ THIS MANUAL BEFORE INSTALLING AND OPERATING THIS APPLIANCE

WARNING

IF THE INFORMATION IN THIS MANUAL IS NOT FOLLOWED EXACTLY AN ELECTRIC SHOCK OR FIRE MAY RESULT CAUSING PROPERTY DAMAGE, PERSONAL INJURY OR LOSS OF LIFE.

DO NOT STORE OR USE GASOLINE OR OTHER FLAMMABLE VAPORS AND LIQUIDS IN THE VICINITY OF THIS OR ANY OTHER APPLIANCE.

Thank you and congratulations on your purchase of a KOMODO fireplace or heater.
Please read the installation & operating instructions before using this appliance.

CAUTION: To prevent electric shock, match wide blade of plug to wide slot and fully insert.

SAFETY INFORMATION

Please read and understand this entire manual before attempting to assemble, operate or install the product.

This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

This Class B digital apparatus complies with Canadian ICES-003.

IMPORTANT INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

Read all instructions before installing or using the heater.

-  **DANGER:** If the information in this manual is not followed exactly, an electric shock or fire may result causing property damage, personal injury or loss of life.
-  **WARNING:** This appliance is hot when in use. To avoid burns, DO NOT let bare skin touch hot surfaces. Keep combustible material, such as furniture, pillows, bedding, papers, clothes and curtains, at least 3 feet from the front of the heater and keep them away from the side and rear.
-  **WARNING:** Extreme caution is necessary when any heater is used by or near children or individuals with disabilities and whenever the fireplace is left operating and unattended.
-  **WARNING:** DO NOT run cord under carpeting. DO NOT cover cord with throw rugs, runners, or similar covering. Do not route cord under furniture or appliances. Arrange cord away from traffic areas and where it will not be tripped over.
-  **WARNING:** Do NOT insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the appliance.
-  **WARNING:** This appliance has hot and arcing or sparking parts inside. DO NOT use it in areas where gasoline, paint or flammable vapors or liquids are used or stored. This fireplace should not be used as a drying rack for clothing. Christmas stockings or decorations should not be hung in the area of it.
-  **WARNING:** This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
-  **WARNING:** Children should be supervised to ensure that they do not play with the appliance.
-  **WARNING:** Do not climb the unit. Suitable for use on a levelled surface or else tipping and/or injury may result.

SAFETY INFORMATION

Use this appliance only as described in the manual. Any other use is NOT recommended by the manufacturer and may cause fire, electric shock or injury to persons.

CAUTION

- If possible, ALWAYS unplug this appliance when not in use.
- DO NOT operate any heater with a damaged cord or plug or after the heater malfunctions.
- DO NOT operate any heater if it has been dropped or damaged in any manner. Disconnect power at service panel and have heater inspected by a reputable electrician before reusing.
- Any repairs to this fireplace should be carried out by a qualified service person.
- Under no circumstances should this fireplace be modified. Parts having to be removed for servicing must be replaced prior to operating this fireplace again.
- DO NOT use outdoors.
- This heater is not intended for use in bathrooms, laundry areas and similar indoor locations. NEVER place heater where it may fall into a bathtub or other water container.
- To disconnect this appliance, turn controls to the off position, then remove plug from outlet.
- ONLY connect to properly grounded outlets.
- This appliance, when installed, must be electrically grounded in accordance with local codes, with the current CSA C22.1 Canadian Electrical Code or follow the National Electrical Code, ANSI/NFPA NO.70.
- To prevent a possible fire, DO NOT block air intakes or exhaust in any manner. DO NOT use on soft surfaces, like a bed, where opening may become blocked.
- The heaters MUST NOT be located immediately below a socket-outlet.
- ALWAYS plug heaters directly into a wall outlet/receptacle. NEVER use with an extension cord or relocatable power tap (outlet/power strip).
- There is a thermostat protective device provide inside of unit. If the inner temperature overheats or abnormal heating occurs, the thermostat protective device will cut off power supply to prevent damage or risk of fire.
- DO NOT slide insert on top of wood to avoid scratching wood surface.
- DO NOT place any objects on top of insert and top air intake vents as this will cause unit to overheat and can cause a fire.

Electrical Connection

- A 15-amp, 120-volt, 60 Hz circuit with a properly grounded outlet is required. Preferably, the fireplace will be on a dedicated circuit as other appliances on the same circuit may cause the circuit breaker to trip or the fuse to blow when the heater is in operation. The unit comes standard with 6-ft. three-wire cord, exiting from the rear of the fireplace. DO NOT exceed the current rating of the current tap. ALWAYS plug heaters directly into a wall outlet/receptacle. NEVER use with an extension cord or relocatable power tap (outlet/power strip).
- This heater is for use on 120 volts. The cord has a plug as shown below. See illustration for grounding instruction. An adapter as shown at C is available for connecting three-blade grounding type plugs to two-slot receptacles. The green grounding lug extending from the adapter must be connected to a permanent ground such as a properly grounded outlet box. The adapter should not be used if a three-slot grounded receptacle is available.

ELECTRICAL SPECIFICATIONS

Voltage: 120 VAC, 60 Hz
Amps: 11.7 Amps
Watts: 1400 Watts

INSTALLATION

Before using your unit please install the legs as shown in diagram below. After completely reading instructions, confirm that all controls on stove are in the OFF position. Plug the unit into a 15 amp, 120 volt outlet.

OPERATING INSTRUCTIONS

Power Switch

- This switch turns the main power ON and OFF.
- The switch will be illuminated when the heater is ON.
- This switch needs to be ON in order to use the heater.

Heater Switch

- The HEATER switch turns the heater ON and OFF. This switch must be lit for the heater function to work.

Thermostat

- To adjust the temperature to your individual requirements, turn the thermostat dial to the right (clockwise) to increase the temperature and to the left to decrease the temperature. This thermostat control dial can only be used while the power switch are in "I" position and heater need turned on. When the heater reaches the desired temperature, the heat will turn off. When the temperature dropped below the selected temperature, heat will restart again.

Remote Control

Standby Button

- Press Standby button to turn ON / turn OFF all function.

Note: Remote control can only be used while the power switch are in "I" position.

CARE AND MAINTENANCE

- Make sure the unit is turned OFF, unplugged and the heating elements of heater are cool whenever you are cleaning the heater.
- Clean the metal trim using a water-dampened soft, clean cloth. DO NOT use brass polish or household cleaners as these products will damage the metal trim.
- The motors used on the fan and the flame generator assembly are pre-lubricated for extended bearing life and require no further lubrication. However, periodic cleaning/vacuuming of the fan/heater and air intake/output vents is recommended.
- Any other servicing should be performed by an authorized service representative.
- Allow at least 10 minutes between turning off the unit and removing the light bulb to avoid accidental burning of the skin.
- Risk of fire: do not exceed the recommended bulb wattage.

WARNING: Make sure the power is turned off before proceeding. Any electrical repairs or rewiring of this unit should be carried out by a licensed electrician in accordance with national and local codes.

If repairing or replacing an electrical component or wiring, the original wire routing, color coding and securing locations must be followed.

WARNING: Electrical outlet wiring must comply with local building codes and other applicable regulations to reduce the risk of fire, electrical shock and injury to persons.

WARNING: Do not use this fireplace if any part of it has been under water. Immediately call a qualified service technician to inspect the fireplace and replace any part of the electrical system.

WARNING: Disconnect power before attempting any maintenance or cleaning to reduce the risk of fire, electrical shock or personal injury.

WARNING: During any service of this appliance, the power to the unit must be turned off. First turn the main power switch to the "OFF" position. Then remove the electrical plug from the wall outlet.

Changing The Light Bulb

The fire effect is created with the use of a 40 watt B-10 candelabra light bulb with an E-12 (small) socket base. The light bulb will have to be replaced from time to time when they burn out.

During normal operation, the stove heater will always give you simulated flame function. If the intensity of flame suddenly increases, it means that the light bulb is going to burn out. Replace the light bulb immediately, according to the instruction. Do not operate the stove heater when the light bulb burns out or without the light bulb.

STEP 1: Turn the main power switch off, and then unplug the power cord from the wall outlet.

STEP 2: Loosen the screws holding the stove back panel to the main body of stove.

STEP 3: You will find 1 x 40W type B-10 candelabra light bulb with E-12 socket base at the bottom.

STEP 4: Replace the burned out light bulb using a new 40 watt Type B-10 candelabra light bulb.

STEP 5: Reinstall the back cover.

STEP 6: Plug in the unit.

CARE AND MAINTENANCE

Note: When the heater is not in use, the heater should be stored in a dry location, away from possible damage. The power cord should be stored properly to avoid contact with hot or sharp objects.

Replacing the Remote Control Battery

When the remote control stops operating or its range seems reduced, it is time to replace the batteries.

Note: The batteries should be removed if the product is to be left unused for a long time.

Caution: Non-rechargeable battery is not to be recharged. Exhausted battery is to be removed from the product.

1. The battery compartment is located on the back end of the remote control.
2. Press the small tab inward as you slide the battery door open and remove the old battery.
3. Insert a new CR2025 lithium battery (not included), ensuring the polarities of the battery match the inside of the battery compartment.
4. Re-insert the battery door.

Disposal of Used Battery

A battery may contain hazardous substances that could be endangering to environment and human health.

- This symbol marked on the battery and/or packaging indicates that used battery shall not be treated as municipal waste. Instead it shall be left at the appropriate collection point for recycling.
- By ensuring the used battery is disposed of correctly, you will help prevent potential negative consequences for the environment and human health. The recycling of materials will help to conserve natural resources.

For more information about collection and recycling of used batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased this item.

TROUBLE SHOOTING GUIDE

PROBLEM	POSSIBLE CAUSE	SOLUTION
1. No power, logs do not glow.	1. The unit does not have power.	1. Check that unit is plugged into a standard 120 volt outlet. Then make sure power is set at "ON" position.
2. All function keys are inactivated and flame flashing.	2. The overheat protection device has been engaged.	2. Unplug unit, wait 5-10 minutes, then the sensor will reset itself. Plug the unit back in and turn on the heater. If the problem persists, call customer service.
3. All function keys are inactivated and flame lighted on but do not glow.	3. The ambient temperature sensor is broken or not working correctly.	3. Unplug unit, wait 5-10 minutes, then the sensor will reset itself. Plug the unit back in and turn on the heater. If the problem persists, call customer service.
4. Fan motor continues to blow after unit is powered off.	4. Normal operation.	4. This is a standard feature; the blower runs for an additional 20 seconds to ensure heat will not be trapped inside the unit.
5. Power cord gets warm to the touch.	5. Normal operation.	5. This is normal for a heater appliance as it requires more current to operate. Check the connections of the appliance cord and the outlet. Make sure the plug fits tightly into the outlet. During use, check the plug and outlet frequently to determine if it is HOT; if so, discontinue use of the appliance and consult with a qualified electrician to check or change the overheating outlet(s).

1 YEAR LIMITED WARRANTY

Soupro Limited Inc. (hereinafter referred to collectively as “the Company”) warrants that your new KOMODO Electric Fireplace is free from manufacturing and materials defects for a period of one (1) year from date of purchase. Subject to the following conditions and limitations:

1. The electric fireplace must be installed and operated at all times in accordance with the installation and operating instructions furnished with the product. Any unauthorized repair, alteration, willful abuse, accident, or misuse of the product shall nullify this warranty.
2. This warranty is non-transferable, and is made to the original owner, provided that the purchase was made through an authorized supplier of the Company.
3. The warranty is limited to the repair or replacement of part(s) found to be defective in material or workmanship – provided that such part(s) have been subjected to normal conditions of use and service – after said defect is confirmed by the Company’s inspection. All replacement parts or products will be new, remanufactured, or refurbished.
4. The Company may, at its discretion, require that any defective part(s) be returned in exchange for the replacement part(s).
5. The Company may, at its discretion, fully discharge all obligations with respect to this warranty by refunding the wholesale price of the defective part(s).
6. This warranty does not cover the LED light bar included with the electric fireplace.
7. Any installation, labor, construction, transportation, or other related costs/expenses arising from defective part(s), repair, replacement, or otherwise of same, will not be covered by this warranty, nor shall the Company assume responsibility for the same.
8. The owner/user assumes all other risks – if any – including but not limited to the risk of any direct, indirect or consequential loss or damage arising out of the use, or inability to use the product, except as provided by law.
9. All other warranties – express or implied – with respect to the unit, its components and accessories, or any obligations/liabilities on the part of the Company are hereby expressly excluded.
10. The Company neither assumes, nor authorizes any third party to assume on its behalf, any other liabilities with respect to the sale of the unit.
11. The warranties as outlined within this document do not apply to non-accessories used in conjunction with the installation of this product.
12. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

This warranty is void if:

- (a) The fireplace is subjected to prolonged periods of dampness or condensation.
- (b) Any unauthorized alteration, willful abuse, accident, or misuse of the product.
- (c) You do not have the original purchase receipt.
