

## Info about your Air Con Installation

This Air Conditioning Installation service requires a professional F-Gas Accredited Engineer to install and commission your wall-mounted Split Air Conditioner. This is included in the offer with the following benefits-

### Key Features:

- Split AC unit, wall bracket and installation at one price
- You pay 0% VAT, saving over £250 (if bought separately)
- On the day of your installation your AC unit (plus wall bracket) is fitted within 4-6 hours
- 2 years parts and labour, and 5 years parts warranty is included if your unit is regularly maintained

### Installation T&Cs:

- Installation to a first or ground-floor only
- Only one 13amp power supply spur is required
- Existing suitable internal power supply spur within 2m
- Unit is fitted to an external wall only
- Internal and external units fitted to same external cavity wall (max 50cm depth)
- Internal and external units are within 4 metres of each other (shared wall for interior and exterior unit)
- Subject to a 3–4-week lead time for this offer
- Subjected to UK mainland only

We'll call you to run through a checklist (T&Cs described above) to ensure conditions are met and discuss specific installation needs and any additional requirements.

We use a network of F-Gas Accredited Engineers based across the country. Please note that Central London and the surrounding area are priced per job to allow for access and parking restrictions. Therefore, travel and access needs may incur additional costs.

### Upgrade options:

- Installation to a higher floor - subject to survey
- Installation to a non-standard cavity wall - subject to survey

Please note: To take up any of the above upgrade options, please call our sales team on 03300 412734.
