

INSTRUCTIONS

V20220412

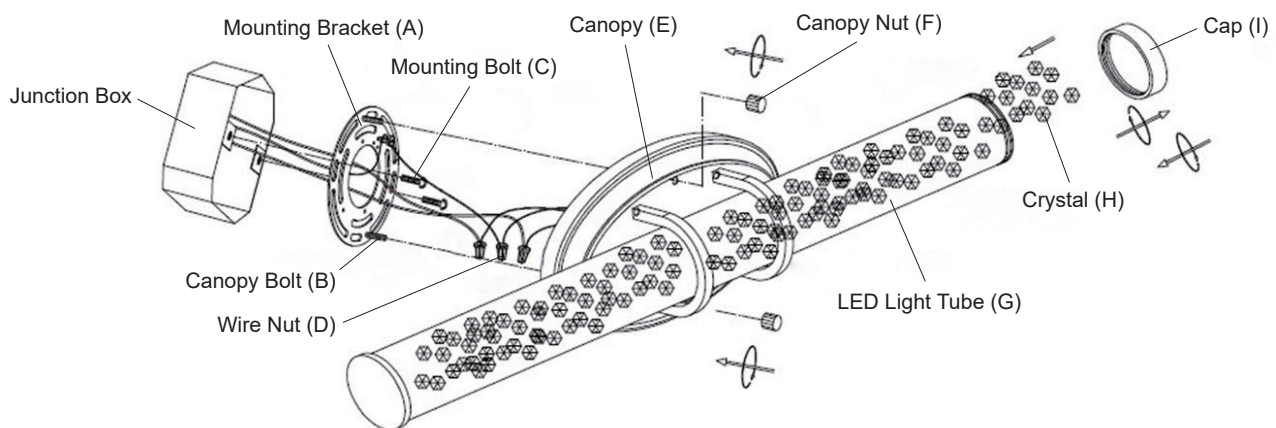

⚠ WARNING!

Read these instructions carefully prior to installation.

- Check for electric, gas, and plumbing lines before drilling or consult a professional.
- **ALWAYS** cut **ALL** relevant power before installing a lighting fixture and do not restore power to the line until the lamp has been **FULLY** installed.

ASSEMBLY

1. Prepare the wiring in your wall for the desired location of your new lamp. Prepare your junction box (not included).
2. Remove the canopy nuts (F) from the canopy bolts (B) and take the mounting bracket (A) off the canopy (E).
3. Connect the mounting bracket to your junction box using the mounting bolts (C).
4. Make electrical connections using the wire nuts (D).
5. Being careful that no wiring is left exposed, place the canopy against the mounting bracket and replace the canopy nuts.
6. Remove the cap (I). Fill the LED light tube (G) with the crystals (H) and replace the cap.
7. Turn on your lamp and enjoy!
