Smart Chime

All-in-one smart wireless doorbell chime and Wi-Fi repeater

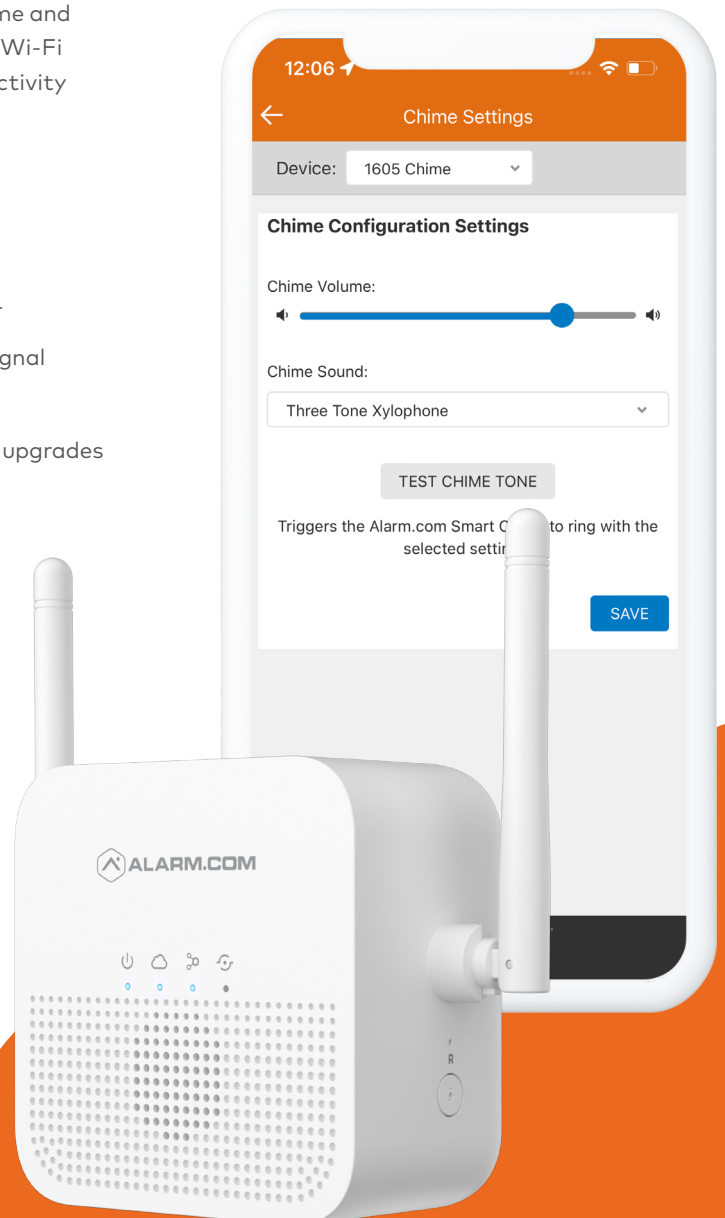

Simplify doorbell camera installations and improve customer satisfaction with the Alarm.com Smart Chime (ADC-W115C). The Alarm.com Smart Chime is a smart wireless doorbell chime and Wi-Fi repeater in one.

Its simple plug-in installation enables customers to adjust chime volume and customize tones for personalization and convenience. The built-in Wi-Fi repeater ensures signals reach building exteriors and boosts connectivity for other Alarm.com Wi-Fi devices.

Key Features

- + Customizable chime tone and adjustable chime volume
- + 2.4 GHz Wi-Fi repeater extends Wi-Fi signal to the home exterior
- + Wi-Fi indicator optimizes placement for the strongest possible signal
- + Supports multiple doorbells or other Alarm.com Wi-Fi devices
- + Connects to Alarm.com for remote troubleshooting and firmware upgrades
- + Simple plug-in installation and available WPS for a reliable setup

With the Alarm.com Smart Chime, you no longer need to rely on third-party Wi-Fi extenders, and it's easy to remotely manage and troubleshoot connectivity issues—no truck roll required! The Smart Chime is a great accessory to have on hand for every Video Doorbell installation in case the home's existing chime is broken or incompatible. It is compatible with Alarm.com Video Doorbell and Wireless Video Doorbell and can also be used with Skybell products.
