

Smart Light Bulb

User Manual (ZigBee3.0)

Important information

- It is recommended that the fittings are installed by a qualified electrician ensuring the installation complies with current IEE wiring regulations & local building control.
- Always switch off mains supply before installation.

Smart Life APP Instructions

iOS App / Android App

1. Download Smart Life APP

- Scan the QR code on the right to download the Smart Life APP. You can also search "Smart Life" in either App Store or Google Play to install the APP.

2. Register a Smart Life account and sign in the app

- You will be prompted to enter your mobile number or email address to register. The system automatically recognises your country / area. You can also select your country code.

Note: If you use a Mobile number you will be sent a text message with your confirmation code to complete your account registration.

Steps for connecting the APP to the device

1. Confirm you have connected 2.4G WiFi and a ZigBee hub into the Smart Life APP.

2

3

2. Add the ZigBee bulb into the hub

1) Reset the bulb by ON/OFF for 3 times until it flashes for 6s.

2) Enter the gateway.

Please follow the picture below to finish as "Add subdevice" → LED already blink, and the configuration would take about 10-120s, which is up to the network condition.

4

3) Add the device successfully, you can edit the name of the device to enter the device page by click "Done".

4) And now you can enjoy the smart automation by controlling the smart bulb anywhere you like.

5
