

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center holes of center tubes (C),(D)and canopy (E).
4. Thread the bottom of center rod (C) into the coupling at the top of fixture body (A). Repeat the process for remaining center rods (C) and (D) as shown in the diagram and hand tighten until snug.
5. Use quick link (F) to connect the top loop of center rod (D) to the loop on the canopy (E) and twist the locking mechanism to secure.
6. Carefully place the glass ball (B) into the groove on the fixture body (A) as shown.
7. Refer to the additional installation instructions included with the product for additional wiring instructions and installation.
8. Restore power to the installation point and retain this sheet for future reference.
