Safety Information

- This product is only for household use, not for commercial or industrial use; not for outdoor or humid places.
- Never use this product alone for children or people with weak thinking ability.
- When using it, please use it in an environment where it can be used safely and under the instructions and supervision of a person who understands the safe use of the product and its hazards. Under such circumstances, please never let children use it;
- Please pay full attention when using it near children and pets. In addition, please be careful not to let children and pets play with this product;
- Please do not touch the power plug and this product with wet hands, please do not absorb moisture and liquid;
- Please do not use this product when the power cord or power plug is damaged; In the case of this product not working normally, in the case of damage, placed outdoors or immersed in liquid, please be sure to contact our company;
- Please do not disassemble the product, wrong assembly method may cause electric shock or fire, please contact our company when you need repair;
- Please do not inhale flammable or combustible liquids such as gasoline. In addition, please do not use it in an environment with flammable or combustible gas or nearby;
- Do not pull the power cord, do not put heavy objects on the top of the machine, and do not clamp the wires to close the door;
- Please do not smoke anything that is on fire, smoking or high temperature such as cigarettes, matches, hot soup;
- Please do not put anything into the opening or block the opening for use; After use, please pull out the plug from the socket before maintenance or parts replacement;
- Please do not use or keep it in humid places such as outdoors or in the bathroom, or where a glass of water is wet;
- Please do not use products with flavours and fragrances as filters. Such chemicals may become one of the causes of fire.

Cautions

- Please do not operate or unplug the power cord with wet hands.

In order to avoid malfunction and electric shock, please absolutely prohibit.

- Please do not use in places with smoke and other flammable things.

Because it may cause fire and explosion, please do not inhale highly flammable liquids and combustibles.

- There may be a peculiar smell when used for the first time, but it will not cause adverse effects on the body.

When using this product for the first time, there will be an odor but it will disappear after a while. Please understand.

However, if the burnt smell persists, please stop using it immediately!

- Please keep the dust cup and filter clean for a long time.

If the dust cup and filter are dirty, it would cause malfunction, and unexpected accidents.

- When maintaining, be sure to cut off the power and unplug the power cord before proceeding.

If the power is turned on for maintenance, there will be a risk of electric shock, accidents and injuries.

- This product stops its operation when the temperature rises abnormally.

If abnormal heating of the motor occurs, or if the suction port is blocked, the operation will stop immediately. Take out the dust cup, confirm that the suction port and filter are clean, and then turn on 60 minutes later.

- Be sure to use each filter with the installed state.

Please be sure to install and use the filter. If the filter is removed and used, it will be one of the reasons for the failure.

Package List

Vacuum Device

Warning: Inbuilt with voltage error protection setting. If the input voltage is wrong, the indicator on the panel will flash along with a "beep" sound when pressing the button.
