

Smart Wi-Fi RGB LED Ceiling Light

12inch

20+4W

Alexa, turn on the bedroom lamp...

OKay~

⚠ SAFETY INFORMATION

Please read and understand this entire manual before attempting to assemble, operate or install the product.

WARNING

- Turn off electricity at main fuse box (or circuit breaker box) before beginning installation by removing fuse (or switching off circuit breaker).
- Be careful not to damage or cut the wire insulation (covering) during fixture installation. Do not permit wires to contact any surface having a sharp edge. To do so may damage or cut the wire insulation, which could cause serious injury or death from electric shock.
- LED electronics can be damaged by electro static discharge (ESD) shock. Before installation, discharge yourself by touching a grounded bare metal surface to remove this hazard. To avoid damage, do not touch the LED module.

CAUTION

- All electrical connections must be in agreement with local codes, ordinances or the national electric code (NEC). Contact your municipal building department to learn about your local codes, permits and/or inspections.
- Risk of fire – most dwellings built before 1985 have supply wire rated for 140°F/60°C. Consult a qualified electrician before installation.

PREPARATION

Before beginning assembly, installation or operation of product, make sure all parts are present. Compare parts with package contents list and diagram on previous page. If any part is missing or damaged, do not attempt to assemble, install or operate the product. Contact customer service for replacement parts.

Tools Required for Assembly (not included): Pliers, Electric Drill, Safety Glasses, Ladder.

ASSEMBLY INSTRUCTIONS

Important to know

1. If you are not familiar with state and local electrical codes, it is recommended that you consult with a qualified electrician. Be sure to connect to a 2.4 GHz Wi-Fi network that covers your installation location.
2. Do not use in wet locations, use indoors only.
3. Non-replaceable LEDs.
4. Caution: LEDs emit bright light. Avoid looking directly into the light source for prolonged periods to avoid eye damage.
5. Not to be used with a dimming circuit or any other electronically controlled switch.
6. The light can not be installed in a ceiling where thermal radiation is generated.

ASSEMBLY INSTRUCTIONS

Turn off the power at fuse or circuit box.

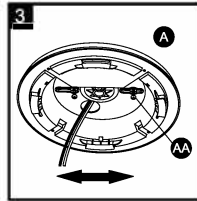

1. Attach the two mounting screws (AA) to the holes on outlet box, thread them in part way: 2 to 3 turns only.

2. Slide the Ceiling pan (A) until it separate from the plastic shade (B). Pull out the Male connector from the Female connector.

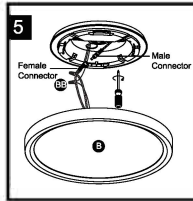

3. Pull out the source wires from the outlet box, thread them through the big hole of the ceiling pan (A).

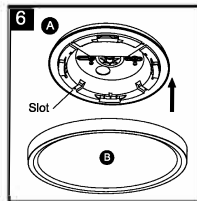

Attach the ceiling pan (A) to the outlet box by inserting two mounting screw (AA) heads into the key holes, then slide the ceiling pan until it is locked in place.

4. Connect the black wire to brown(power) wire, white wire to blue(neutral) wire with supplied wire connectors (BB). Tuck all wires into outlet box. Then secure the mounting screws tightly with screwdriver (not included). Finally connect the Female Connector to the Male Connector.

5. Attach the main body (B) to the ceiling pan (A) by aligning studs and slots, then turn it clockwise until it is locked in place.

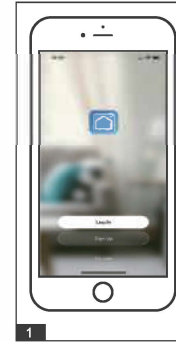

Turn on the power at fuse or circuit box.

Link Smart Life App with Amazon Alexa

SET UP AMAZON ECHO AND ENABLE SMART LIFE SKILL

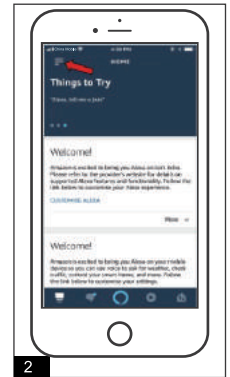

Search "Amazon Alexa" in App Store or Google Play to install the App.
We take App configuration as an example. Configuration through web and App are basically the same.

1. Set up Echo with Alexa app
You can skip this part if your Echo is already set up.
 - 1). Make sure your Echo device is energized.
 - 2). Make sure Echo is in a Wi-Fi network that can access Amazon services smoothly.
 - 3). Open the Alexa App by tapping the App icon on your mobile device.
 - 4). Type in your Amazon account and password, then tap "SIGN IN".

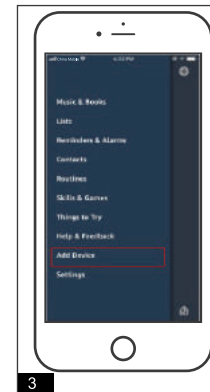

1

2. Tap the hamburger menu the top left corner.

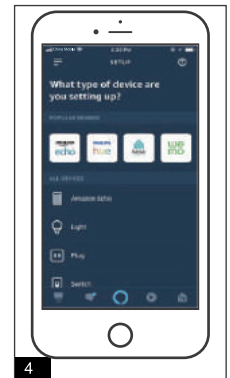

2

3. select "Add Device".

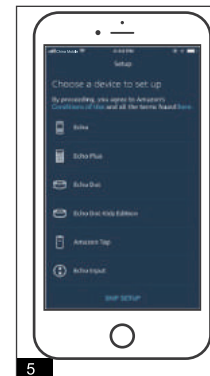

3

4. Select Amazon Echo in the Set up page.

4

5. As shown in Fig.5.

5

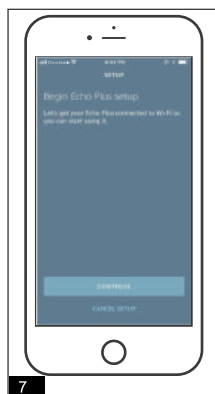

6. As shown in Fig.6.

6

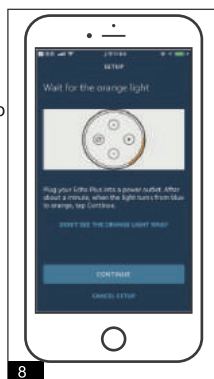

Link Smart Life App with Amazon Alexa

7. Select the type of your Echo, then tap "CONTINUE".

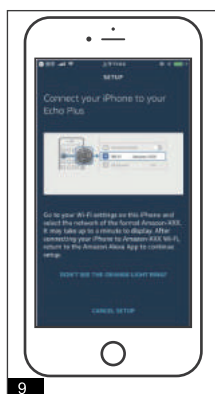

7

8. Long press the dot button on the top of your Echo device until the orange light shows up, then tap "CONTINUE". Make your mobile phone connected to the hot spot of echo, then tap "CONTINUE".

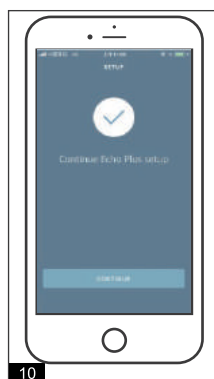

8

9. Connect your iPhone to your Echo Plus.

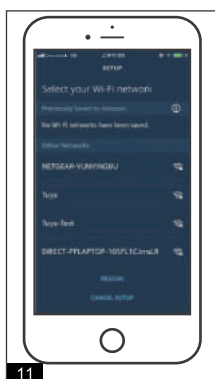

9

10. Continue Echo Plus setup.

10

11. Select a Wi-Fi to let Echo have the access to the internet. Type in the Wi-Fi password, then tap "CONNECT". Echo may take several minutes to connect the network.

11

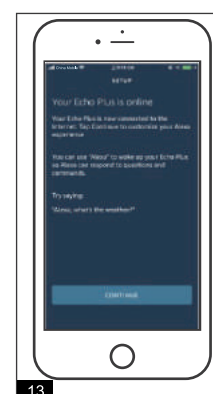

12. Preparing your Echo Plus.

12

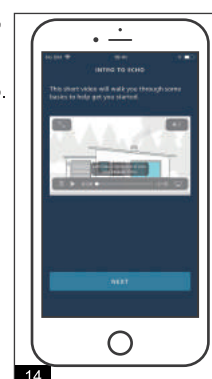

Link Smart Life App with Amazon Alexa

13. Tap "CONTINUE" when Echo is connected to the network.

13

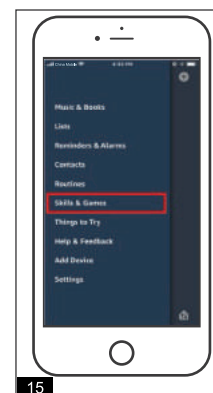

14. Tap "CONTINUE" when Echo is connected to the network. After an introduction video, tap "NEXT" to finish the setup. At this point, the Echo configuration process ends.

14

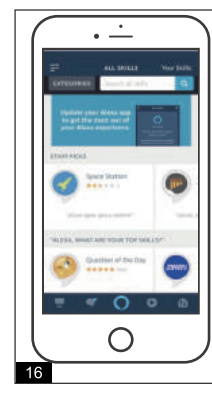

Link Smart Life account to Alexa

15. Start the Alexa App then click on the "Menu" (In the upper left corner) Select Skills & Games.

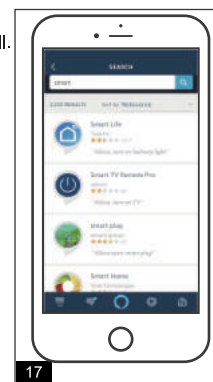

15

16. In the search menu type "Smart life".

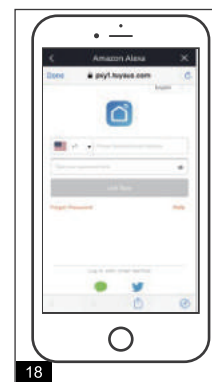

16

Adjust brightness:

Hey Google, turn the "Shop Light" to 1% ~ 100% percent.

FAQs

1. Can it be controlled in another way if I leave my phone?

Yes, this smart Led ceiling light can also be controlled by switch and voice. You can control the light by using Alexa or Google Assistant.

2. Can I use Smart Wi-Fi lights with a dimmer?

No, the Smart Wi-Fi lights have a built-in dimmer. You can dim the light using the "Smart Life" app or voice of Alexa and Google Home.

3. How long the smart ceiling light last?

Our smart light brands come with a lifespan of 23-25 years.

4. Can I use smart Wi-Fi lights to schedule a specific color or brightness level?

You can use Smart Scenes to set a scene with a specific color or brightness level for a device or group of devices, then use Automations to schedule the settings.

5. Can I control these smart ceiling lights with Alexa, Google and HomeKit?

Our smart ceiling lights are compatible with Alexa and Google. They are not compatible with HomeKit. Because our switches are Wi-Fi and Bluetooth enabled, you can control it with Alexa and Google without the need of a hub or additional device. For voice control, you will need to link your Smart Life account with Alexa and/or Google.

6. Why APP connection failure or the device doesn't connect to network?

- ① Make sure the connecting Wi-Fi is 2.4GHz.
- ② Make sure the Wi-Fi password that you enter is correct.
- ③ Make sure the internet connection speed is over 10Mbps.
- ④ Mobile device requirement: iPhone 4S / ios 9.0 and above.

7. I have two hall lights that are controlled together with on/off switches on both ends. can I synch these so they're both still together?

You can group the two lights with "Smart life" App, then you can control the two lights simultaneously or separately.

FCC Statement

Any changes or modifications not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Caution:

Before cleaning the fixture, disconnect the power to the fixture by turning the breaker off or removing the fuse from the fuse box.
