Instruction manual

You have purchased a product LIVOO brand and we thank you. We take great care in design, ergonomics and ease of use of our products. We hope that this product will give you complete satisfaction.

GENERAL SAFETY INSTRUCTIONS

PLEASE, TAKE TIME TO READ WELL THE INSTRUCTIONS FOR USE
PARTICULARLY BEFORE THE FIRST USE.

A misuse of the appliance can damage it or hurt the user. Assure that you use the appliance for the use for which it is designed; we refuse any responsibilities as for the damages by an incorrect use or a bad manipulation.

1. Check that your main voltage corresponds to that stated on the appliance.
2. The safety instructions do not completely eliminate the specified hazards and do not dispense with usual preventive measures.
3. Keep this manual with the appliance. If the appliance is to be used by a third party, this instruction manual must be supplied with it.
4. Do not insert your fingers or foreign objects into the device when it is plugged into a power outlet.
5. Never leave the appliance unsupervised when in use.
6. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
7. Keep the appliance out of the reach of children.

Instruction manual

8. Children shall not play with the appliance.
9. Cleaning and use maintenance shall not be made by children without supervision.
10. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard (*).
11. Do not pass the cord over objects with sharp edges and keep it at a distance from, hot objects and bare flames. Always pull on the plug to disconnect it from the feed source.
12. Be careful not to bend, crush, pinch the power cable, or expose it to heat sources or sharp or sharp objects. Avoid letting the device become an obstacle on which someone might trip.
13. The appliance is suitable for indoor use only. Protect the device against rain, moisture and splashes. Never place objects containing liquids on or near the unit. Never immerse the device in water or any other liquid
14. When you use an extension cable. Make sure that it is adapted to the appliance essential consumption. Contrary to this, the extension cable and/or the plug risks overheating.
15. Only use the appliance for domestic purposes and in the way indicated in the instructions.
16. Do not touch the plug if your hands are damp or wet.
17. Never move the appliance by pulling the cord. Make sure the cord cannot get caught in any way. Do not wind the cord around the appliance and do not bend it.
18. Unplug the appliance when not in use or for cleaning

Instruction manual

19. The appliance is not suitable for use in barns, stables and similar locations.
20. The appliance is not to be used in locations where flammable vapour or explosive dust is likely to exist
21. Please refer to below paragraph for details on the method and frequency of cleaning.
22. The lamps in the appliance cannot be replaced. Scrap the appliance when the lamps cease to operate.

(*) Competent qualified electrician: after sales department of the producer or importer or any person who is qualified, approved and competent to perform this kind of repairs in order to avoid all danger. In any case you should return the appliance to this electrician.

This instruction manual is available too on our website www.livoo.fr

SPECIFICATIONS

Voltage: 220-240V 50Hz
Power output: 27W
Class I
Lamp type: G5 2XT5 BLF8W
Protection area: 40 m2

CAUTION: Hazardous voltage. Risk of electric shock

Indoor use only

Read the instructions before use!

Do not touch the electric grid!

Instruction manual

DESCRIPTION AND USE

The insect lamp gets rid of flying insects without chemicals. The blue light emitted by the tube attracts insects to the internal high-voltage metal grid (2300-2500V) to strike them down.

Place the insect killer in a dry place. Plug in an appropriate AC outlet. Unplug the unit from the mains to stop operation.

This device can be suspended on wall thanks to his metallic chain or simply placed on a table and should always be protected from splashing water or moisture. Be sure to put the unit on a flat, stable surface. Do not hang or lift your device by the wire, but always use the suspension chain provided for this purpose.

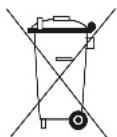

WARNING: The lamps in this appliance can not be replaced. Scrap the appliance when the lamps cease to operate.

CLEANING AND STORAGE

Before any intervention, unplug the appliance and wait for it to cool down.

Empty the removable collection tray in the base of the appliance daily. Pull it towards you to empty it. With a small brush clean the dead insects on the grill and the lamp.

Keep this unit in a clean, dry place and away from dust. Clean the outside regularly with a dry cloth.

Correct disposal of the unit

(Electrical and Electronic Equipment)

(Applicable in the European Union and the rest of Europe that have adopted separate collection systems countries)

The European Directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE), requires that old household electrical appliances must not be disposed of in the normal household waste stream. Old appliances must be collected separately in order to optimize the recovery and recycling of the materials they contain and reduce the impact on human health and the environment. The symbol of the crossed out dustbin is marked on all products to remind the obligations of separate collection. Consumers should contact their local authority or retailer for information concerning the correct disposal of their product.
