Diagram 6

Diagram 7

Wall Thickness (mm)	Screw specifications	Installation sections	sections
24-30mm	M4X14		
30-34mm	M4X20		
34-39mm	M4X14		
39-44mm	M4X20		
44-49mm	M4X14		
49-54mm	M4X20		

Optional Accessory:

Curtain Track Assembly Kit
Easily add a customized curtain to any window.
The curtain track length is W+200mm. Kit comes with all fittings required to add curtains.

Diagram 8

Diagram 9

Tips for fitting: Use a magnetic tip screwdriver to hold screws when joining inner and outer frames.

Special Note:

1. The window supplied is suitable for a flat wall. For Caravans/Motor Homes etc finished with profiled wall cladding, use a closed cell foam tape or suitable sealant to provide a waterproof fit. If using sealant remove the rubber outer seal provided before fitting.
2. Normal Inner frame is suitable for 24-34mm wall thickness. For the wall thickness less than 24mm or more than 34mm, it is necessary to specify wall thickness when placing the order.
