BASIC ASSEMBLY OF SINGLE ROW LOCKERS

Step One:

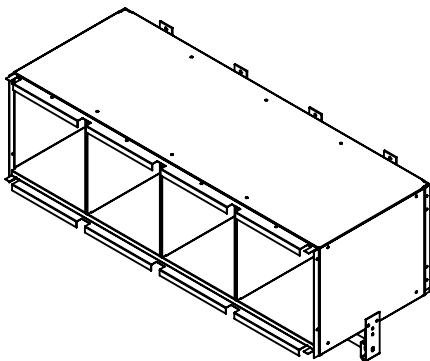

- A: Align side panel and back panel vertically and securely connect them with bolts beginning at the top edge
- B: Align bottom panel to side panel and back panel, and securely connect them with bolts

Step Two:

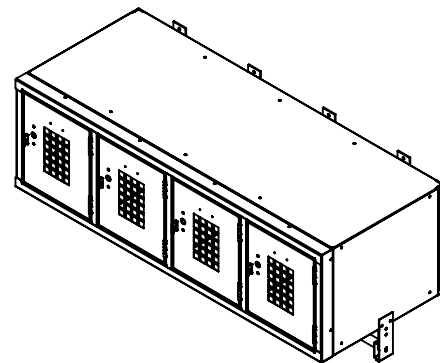

- A: Bolt the three middle dividers to the bottom panel

Step Three:

- A: Attach top panel to the panel set and bolt to middle dividers and bottom panel
- B: Bolt the block to back panel and top panel together
- C: Bolt the bracket to the side panels and attach the coat rod to the bracket, then secure the coat rod with hex head bolt

Step Four:

- A: Attach the frame to the panel set and secure them with bolts
- B: Hanging the lockers to the wall with anchoring (provided by purchaser)
