Safety information

Before using and operating the earphones, please read and follow the precautions below to ensure optimum use and safety.

Hearing loss

- Listening sounds at a high volume may permanently damage your hearing. When you use earphones to listen to music or take calls, it is recommended to use the minimum volume required for music or calls to avoid damaging your hearing.
- Using when driving may impair your concentration and cause you to be distracted which may cause a car accident.

Child health

- This device and its accessories may contain some small parts. Keep the device and its accessories out of reach of children. Children may inadvertently damage the device and its accessories, or swallow small parts, causing suffocation or other hazards.
• This device is not a toy, children should use this device under adult supervision

Precautions

The symbol on the product, battery, documentation or packaging indicates that at the end of their service life, products and batteries should be disposed of at selective waste collection points designated by local authorities. This will ensure that WEEE waste is recycled and treated in a way that protects the environment.
