

Induction Cooktop, 75cm, 4 Zones

Series 9 | Contemporary

Black Glass

Instant response and cool-to-touch safety from your spacious cooktop area, with zones designed for different sized pots and pans.

- Child and pet safe – cooktop remains cool to touch until a pot or pan is placed on the surface
- PowerBoost activates a very high heat, bringing liquid to boil in less than a minute
- Touch&Slide controls easily control each cook zone

DIMENSIONS

Height	49mm
Width	750mm
Depth	530mm

FEATURES & BENEFITS

EASY CLEANING

The surface around your cookware stays cool when you cook, preventing baked-on spills and making cleaning up a breeze. The durable ceramic cooktop surface just needs a quick wipe after use to maintain its good looks.

ENHANCED FEATURES

PowerBoost and GentleHeat deliver either very high or very low heat, fast, for specialised cooking tasks such as searing meat and melting chocolate. An integrated timer keeps you on track.

SUPERIOR EFFICIENCY

No heat is wasted during induction cooking because only the cookware is heated, not the cooktop surface. This makes induction cooking more energy-efficient than electric or gas cooktops.

PRECISE CONTROL

Fisher & Paykel induction cooktops offer extremely accurate, consistent temperature control from very high to very low heats, so you can sear, sauté and temper like a pro.

INSTANT RESPONSE

Go from a boil to a simmer in seconds. Fisher & Paykel TouchandSlide controls react immediately when you adjust the temperature.

SAFER CHOICE

Induction cooktops only start heating your pot or pan once you've placed it on the ceramic surface and stop as soon as you remove it – so you don't have to worry about curious little fingers or leaving an element on.

HIGH-HEAT SEARING

Fisher & Paykel induction cooktops quickly reach high temperatures, ideal for cooking steak. Cast iron pans are the best choice as they are highly inductive and get really hot, for perfect searing.
