

# mola N3

## User Guide

### GPS AND SR

The GPS can synchronize the driving trajectory and various GPS-related parameters on the DDPai APP of a mobile phone, including GPS positioning and GPS track recording.

The SR can import the GPS data and sensor data into the video to generate an exclusive, cool trajectory interface, giving you a better visual and content sharing experience.

**NOTE:** The GPS version of the Dash Cam supports GPS and SR. The normal version of the Dash Cam doesn't support GPS and SR.

### 1 SPECIFICATIONS

- Product Name: Dash Cam
- Model: mola N3
- Input: 5V --- 2A
- Size: 99\*36\*28mm
- Storage: Class 10 TF card up to 128 GB, loop recording
- GPS: GPS module built-in(optional)

### 2 PACKAGE CONTENTS

|                  |             |                   |

| Upgrading                             | Red and blue lights are always on |
| Storage abnormal / working abnormally | Blue and red lights flash quickly |

### 5 INSTALLATION

1.Clean an area on the windshield where you wish the Dash Cam to be installed, this assists in adhesion.

2.Take out the Dash Cam and bracket from the box, push the lock button on the bracket, and insert the USB Type-C port of the bracket into the USB Type-C port of the Dash Cam to ensure that the bracket fits firmly.

3.Remove the protective film from the back of the bracket, attach the adhesive side of the bracket on the windshield where it has an unobstructed view of the road but does not interfere with the driver's view. As shown below.

### 6 APP INSTRUCTION

**Install DDPai APP**  
Scan the QR code to download the "DDPai" APP.

**Pair Smart Phone to Dash Cam**

- Keep the Dash Cam and mobile phone within 2.5meters.
- Launch DDPai App, tap on "Device > Connect new devices".
- Choose your DDPai Dash Cam from the network list(For Android system, App will start to search Dash Cam network automatically. For iOS phone: turn on WLAN from "Settings ->WLAN"). The Dash Cam's default SSID (or Wi-Fi name) is DDPai\_mola N3\_XXXX.
- Enter the password (the default password is '1234567890').
- Enter DDPai App, wait a few seconds until the preview screen show.

### 7 PREVIEW

1.Open the DDPai App, and add your Dash Cam.

2.Select "Device > Entering" tab, this will bring you to the preview page.

Rotate your smart phone or press expand icon, turn the preview screen to landscape mode.
