*This symbol on the product or on its packaging indicates that the product must not be disposed of with normal household waste. Instead, it is your responsibility to dispose of your waste equipment by arranging to return it to a designated collection point for the recycling of waste electrical and electronic equipment. By separating and recycling your waste equipment at the time of disposal you will help to conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment. For more information about how to recycle your DH Lifelabs supplied products for recycling, please contact our Customer Services Department on 0300 373 0739 or visit <https://dhlifelabs.co.uk>.

**The Aaira + Humidifier uses HOCI Technology that takes ingredients found in nature (water and non-iodized salt) and uses science (electrolysis) to create a powerful disinfectant.

Aaira + Humidifier

QUICK START GUIDE | AAE-50WN05

Your safety is important to us.

Please read the full instruction manual online and all safety instructions before you use the device.

WARNING! TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR INJURY PLEASE ADHERE TO THE FOLLOWING:

- ! Use only as described in the instruction manual. Do not carry out any maintenance other than that shown in this guide or as advised by customer support. Any other use not recommended by the manufacturer may cause fire, electric shock or injury.
- ! Ensure the device is fully assembled in accordance with the instructions before use.
- ! Do not move the device while it is plugged in or powered on. Make sure the device is powered off and unplugged before moving.
- ! When moving the device, hold it by the base of the water tank and please take care to avoid spilling the water inside the device. If water is spilled while moving, wipe the device dry with a clean cloth before use. If water is spilled inside the device while moving, do not use and allow the water in the device to dry completely before.
- ! This device is not recommended for use by children under the age of 8, and children and vulnerable consumers should have adequate supervision or instruction when interacting with the device.
- ! Do not use the device on wet surfaces or outdoors. Do not use in bathrooms. Never operate the device where it may fall in the bath or other water container. Do not use or store it where it may get wet or in the immediate surroundings of a bath, shower or swimming pool.
- ! Do not pour water into any openings except for the water tank. When refilling, only do so as described in this guide. DO NOT USE HOT WATER.
- ! DO NOT LOCATE DIRECTLY BELOW A MAIN ELECTRICITY SUPPLY SOCKET.
- ! This device may have hot parts inside. Do not use in areas where fuel, paint or flammable liquids are present. Keep combustible materials away from the device. DO NOT USE NEAR FURNACES, FIREPLACES, STOVES OR OTHER HIGH-TEMPERATURE HEAT SURFACES.
- ! Always plug directly into a wall socket. Never use the device with an extension cord as overloading may result in the cord overheating or catching fire.
- ! Do not unplug by pulling the cord from the socket. To unplug, grasp the plug, not the cord.
- ! Do not handle any part of the plug with wet hands.
- ! Do not use the device with a damaged cord or plug. If the cord is damaged it must be replaced.
- ! Do not allow the area around the device to become damp or wet. If dampness occurs, turn the output of the humidifier down or use intermittently. Do not allow absorbent materials, such as carpeting, curtains, drapes, or tablecloths, to become damp.
- ! If the device is not working properly, has received a sharp blow, has been dropped or damaged, do not use the device.
- ! Do not use the device on a soft or unstable surface. ALWAYS PLACE THE DEVICE ON A FIRM, FLAT, LEVEL SURFACE.
- ! DO NOT COVER THE DEVICE WHILE IN USE.
- ! Never leave water in the reservoir when not in use. Empty and clean before storage. Clean before next use.
- ! When removing the cold evaporation filter, take care to keep your fingers clear from in between the filter and the device base.
- ! Turn off all controls before unplugging. Always unplug the device if not in use and while filling or cleaning.
- ! For best performance, place the device on the floor at least 3 feet from any wall or devices.
- ! READ AND SAVE THESE INSTRUCTIONS.
- ! THIS DEVICE IS INTENDED TO BE HOUSEHOLD AND INDOOR USE ONLY.
- ! Warning: Micro-organisms that may be present in the water or in the environment where the device is used or stored, can grow in the water reservoir and be blown into the air causing very serious health risks when the water is not renewed and the tank is not cleaned properly every 3 days.
- ! The input voltage is 220-240V, 50-60Hz.
- ! Be aware that high humidity levels may encourage the growth of biological organisms in the environment.

Read all safety instructions in this quick start guide, the online instruction manual, and on device.

Product Overview

1. Water Tank
2. Cold Evaporation Filter (CEF)
3. Cold Evaporation Filter Lid (CEF Lid)
4. Top Cover
5. Salt Bottle with 1 Gram Scoop
6. Power Cord
7. Pre-Filter

Quick Start Guide

1

Make sure the Cold Evaporation Filter (CEF) is secure and turn the CEF lid right to lock in place.

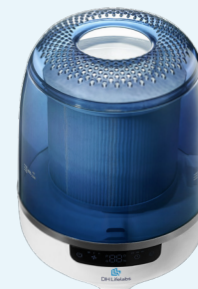

2

Fill salt bottle with non-iodized salt and place 3 scoops (3 grams) on top sides of the lid. Skip this step for humidification only.

3

Close the top cover.

4

Fill water to MAX line, washing all salt off the CEF lid.

5

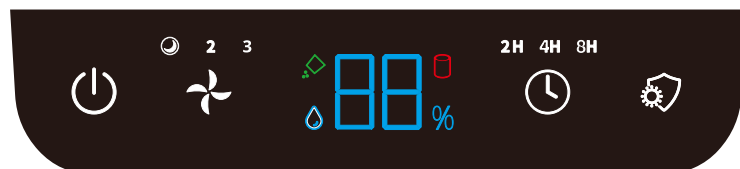

Press the power button to turn on and select fan and sterilize function.

Chemical Reaction

Control Panel

On/Off

Powers the device on and off

Fan Speed

(Sleep/2/3) Three fan speeds, including an ultra-quiet sleep mode

Timer

(2H/4H/8H) Set the timer to have the device turn off automatically

Disinfect

On and flashing when generating HOCl. Turn off for humidifier only function

Humidity indicator

Shows the humidity rate in the room

CEF Replacement Indicator

Press Disinfect button for 3 seconds to reset the filter life countdown

Alerts

Low Salt Alert

Solid salt level indicator
Solid blue light
Sound alert

or

Low Water Alert

Solid water level indicator
Flashing blue light
Sound alert

or

High Salt Alert

Flashing salt level indicator
Flashing blue light
Sound alert

What to do:

One process solves all alerts

1. Power off device
2. Empty water tank
3. Rinse the CEF
4. Add 3 scoops total (3 grams) of non-iodized salt
5. Fill water to MAX line

Cleaning Your Aaira + Humidifier

The device should be cleaned regularly. Clean the water tank with fresh water. Use a clean, dry cloth for the external surfaces of the device. If water stays in the tank for 7 days follow the alert process.

Maintenance Alert

Flashing water level indicator
Flashing salt level indicator
Flashing blue light
Sound alert

What to do:

1. Power off device
2. Empty water tank
3. Rinse the CEF
4. Add 3 scoops total (3 grams) of non-iodized salt
5. Fill water to MAX line

Descaling

Lime scale builds up in the device over time. To ensure the best performance, descale monthly.

What to do:

1. Power off device
2. Empty water tank
3. Take out the CEF
4. Add 50ml (2 oz) of 5% white vinegar; leave for 1 hour (**do not** turn device power on)
5. Empty and clean water tank with fresh water

Storage

When the device is not used for an extended time, we recommend that you empty the water tank and remove the CEF to let it dry, then store it in a cool dry place.

Do not store the device where it might be exposed to excessive moisture or direct sunlight. The device may not operate effectively in very low temperatures. The device can be damaged when exposed to sub-freezing temperatures.
